Four Winds Casino New Buffalo, MI

In August of 2007 the Pokagon Band of Potawatomi Indians opened the Four Winds Casino Resort. Cordeck's N-R-G-FLOR® Cellular Raceway System was chosen to meet the large data requirements of Four Winds, a single story casino. Due to project constraints, the Cordeck production facility attached the trench to cellular deck cross sections, accelerating the overall project schedule.

The casino offers 130,000 square feet of gaming space, 165 hotel rooms, six restaurants, entertainments bars, and retail shops. The casino floor includes 3,000 slot machines and 100 table games. Constructed at an estimated cost of \$160 million, the 52-acre development draws more than four million visitors each year to the New Buffalo area.
