Santa Fe Springs, CA

**Cordeck System:**

N-R-G-FLOR+®  
In Floor Cellular Raceway System

Hollywood Park Casino has just completed an exciting and major revitalization that has transformed it into the premier casino and entertainment destination in Southern California.

*“Turner has been involved helping the Hollywood Park Casino and developer Wilson Meany with cost studies, product solutions and constructibility throughout the history of the development of their new facility in Inglewood. Patrick and Gary connected with Turner representatives early in the design process to share their expertise to the design and construction teams and were available throughout the process to help the customer achieve the best possible flexibility while saving them maximum upfront cost.”*

-Justin Bertain

Project Manager - Turner Construction

Our Innovative In Floor Cellular Raceway is an In-Slab Wire Management System That Delivers Power and Data Where You Need it
