Cordeck System:

N-R-G-FLOR+[®]
In Floor Cellular Raceway System

Solaire Manila, the first of four luxury, mega-casino resorts planned for Entertainment City in Manila Bay, is the first in the Philippines to utilize our N-R-G-FLOR+[®] In Floor Cellular Raceway System. Phase one of Solaire Manila consisting of 27,700 square meters of gaming area providing a first-class gaming experience. The casino holds 1,200 slot machines and 300 gaming tables, which are spread over two levels with distinct areas designed to appeal to VIP's high-limit players and mainstream players.

The sales and engineering teams of Cordeck, in cooperation with HTY International, Inc., assisted in the overall design of our N-R-G-FLOR+[®] In Floor Cellular Raceway System. The on-site guidance and involvement of Cordeck's project management along with their expertly coordinated efforts to accommodate unique variations of this vast international project, insured that the project met both scheduling and budgeting milestones and deadlines.

Our Innovative In Floor Cellular Raceway is an In-Slab Wire Management System That Delivers Power and Data Where You Need it
